Back-End	Node.js, Express.js, PHP, Laravel, RESTful APIs, Authentication & Authorization
Databases	MySQL, MongoDB, PostgreSQL, Firebase
Tools & Platforms	Git & GitHub, VS Code, Figma, WordPress, Netlify, Vercel, cPanel, Postman
Other	SEO Basics, Web Performance Optimization, UI/UX Principles, Agile Methodology, Client Management

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Remote / Ibadan, Nigeria

January 2023 – Present

- Designed, developed, and deployed 15+ responsive websites and web applications for small businesses, startups, and individual clients across Nigeria and beyond.
- Built custom e-commerce solutions, company portfolios, landing pages, and admin dashboards using React, Next.js, Node.js, and WordPress.
- Collaborated closely with clients to gather requirements, provide technical consultations, and deliver solutions that improved online presence and user engagement.
- Optimized websites for speed, SEO, and mobile responsiveness, resulting in improved search rankings and conversion rates for multiple clients.
- Managed full project lifecycle — from initial consultation and wireframing to development, testing, deployment, and post-launch support.

Web Development Intern | SQI College of ICT, Ibadan

June 2022 – December 2022

- Assisted in the development of internal tools and student portal features using HTML, CSS, JavaScript, and PHP.
- Participated in code reviews and pair programming sessions, strengthening best practices in clean code and version control with Git.
- Supported junior students in debugging and understanding core web development concepts during practical sessions.

KEY PROJECTS

E-Commerce Platform for Local Retail Business

Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS

- Developed a full-stack online store with product catalog, shopping cart, payment integration, and admin dashboard for inventory management.

- Enabled the client to expand sales beyond physical location and manage orders efficiently.

Corporate Website & CMS for Professional Services Firm

Tech Stack: Next.js, Tailwind CSS, Headless CMS

- Built a modern, SEO-optimized multi-page website with blog functionality and easy content management for non-technical staff.
- Improved page load speed by over 40% through image optimization and efficient code splitting.

Student Management System (Academic Project)

Tech Stack: PHP, MySQL, Bootstrap, JavaScript

- Designed and implemented a web-based system for managing student records, course registration, and results processing.
- Demonstrated strong understanding of database design, authentication, and CRUD operations.

EDUCATION

Software Engineering — SQI College of ICT, Ibadan, Nigeria

Intensive practical training focused on full-stack web development, software design principles, databases, and modern development tools.

Computer Science — Lead City University, Ibadan, Nigeria

Core studies in programming fundamentals, algorithms, data structures, software engineering, and computer systems.
